About SUKUGA

Sukuga Technologies Pvt. Ltd. is a proud Indian start up with Japanese technological expertise under the initiative MAKE IN INDIA, is an amalgamation of rich automotive experience of four decades and state of the art modern technology bonded together to deliver an unmatched comfort through great quality products.

Our Designing, Manufacturing and Testing capabilities ensure high quality products with top most safety standards. We are manufacturer and exporters of automotive shock absorbers for 2-Wheelers (Motorcycles, Scooters and E-bikes), 3-Wheelers (Auto Rickshaws and Loading E-Rickshaws), 4-Wheelers (Passenger Cars, E-vehicles), Heavy Trucks, Trailers (Cabin Shocks) and Off-road vehicles.

Our In-house testing and R&D lab ensure complete simulation and validation of a product which is carried out before launching in the market, ensuring best of the class quality, safety, and comfort for customers.

Vision

We, at Sukuga, envision a future created for utmost comfort for the society. We are committed towards becoming a global leader in shock absorbers, by creating superior value for the customers by delivering cutting-edge technology products with the focus on customer centricity synched with complete customer satisfaction.

Mission

Our mission is to Manufacture and Deliver high quality products by following SEQ (SPEED, QUALITY AND EFFICIENCY) aligned with Modern technology promising best value for money to the customers.
